TEKSYNC.COM

// We've been working with Teksync Technologies since 2008. They have helped to extend the reach of our service department while providing smart hands, network, and telecommunications support for our customers. They are very responsive and their partnership is critical to the delivery of our services. //

- Mario Bordenga | LIT Networking

Teksync Technologies is a one stop shop for your IT and Telecommunications needs. We specialize in Unified Communication, VoIP Services & Solutions, Low Voltage Cabling, Managed IT Services, and Smart Hands Support. We leverage our trained professionals and use industry best practices to reduce client risk exposure while deploying new innovative technologies and maintaining current systems and technical operations. With **20+ years** of industry leadership and experience delivering technical solutions, Teksync Technologies can partner with your company to provide custom solutions to your unique IT challenges.
